Special Collection Offer:

15 selected bulbs (doublenose) for \$1.25 postpaid; 3 each of 5 varieties - King Alfred, Emperor, Olympia, Sir Watkins, and Croesus. (Substitute Helios or Horace for one variety if desired.)

50 selected bulbs (doublenose) for \$3.25 postpaid; 10 each of same 5 varieties. (Substitute Helios and/or Horace if desired.)

POSTAGE is NOT PREPAID on PECK offers, but bulbs ordered by COUNT will be sent postpaid to the fourth zone (600 miles) for orders of \$1.00 or more. A peck weighs about 12 lbs. If you live within 150 miles of us, allow 2½¢ for postage on a peck. Bulbs may be sent by express collect for one-half the first class express rate. (Usually less than postage.

WHEN TO PLANT: September in the North, October in the South.

Where and how: Plant with base six or seven inches below surface of ground, in friable soil where moisture is available (but not where water stands). Caution: In spring cut leaves only after they die.

BULBS FOR NATURALIZING. Nearly all varieties of daffodils are good for naturalizing, i. e. planting in grass or in a light woods, without cultivation or digging for a number of years. On the whole small varieties will bloom in this way somewhat longer without overcrowding from multiplication causing the bulbs to dwindle below blooming size. However larger varieties make more of a show for the first few years, and should bloom at least four years even without being dug and separated.

A MIXTURE will lengthen the time of blooming and give variety to the planting. (Our mixtures bloom over a period of three or four weeks with moderate weather conditions.) A planting of all one variety will give a more brilliant effect when in bloom however as the whole patch will be golden at one time. If you buy one peck each of several varieties, you can make a beautiful effect by planting in drifts of different varieties. Our mixtures are largely mixed by hand at shipping time, and all bulbs are healthy and of good blooming sizes.

... a large portion of the area is covered by a dense forest of tall trees, mostly pines, with some oaks and maples. The soil is very poor and rocky, but there are some good fields where crops are grown.
